## PROJECTS

---

**Budget Mate** | *Node.js, Express.js, React.js, MongoDB, Tailwind CSS*

- [GitHub](#) | [Live Demo](#)
- Developed a full-stack budgeting web app to help users track income, expenses, and savings in real-time.
- Designed a responsive frontend using React.js and Tailwind CSS, reducing average page load time by 25%.
- Implemented secure JWT authentication and authorization for multiple user accounts.
- Created RESTful APIs with Node.js and Express.js to handle transactions, categories, and user data efficiently.
- Used MongoDB to store and manage financial data, optimizing queries to retrieve user reports in under 2 seconds.
- Added dynamic charts to visualize spending patterns monthly.

**LeetAnalyze** | *React.js, Tailwind CSS, APIs*

- [GitHub](#) | [Live Demo](#)
- Built a web app that displays LeetCode user stats to track coding progress.
- Added a feature to compare 2 profiles side by side, improving insights for competitive programming preparation.
- Used Chart.js to generate 5+ types of charts, showing activity trends, solved problem categories, and performance metrics.
- Designed a fast, mobile-friendly frontend using React.js and Tailwind CSS.
- Implemented React Router DOM for smooth navigation between stats and comparison pages, improving user retention by 20%.

## EDUCATION

---

**Sagar Institute of Research and Technology**

*Bachelor of Technology in Computer Science – CGPA: 7.27*
